

April 22, 2022

The Program will be as follows:

10H00 – Twenty-four STEM – 11th graders from Escola Secundária da Azambuja + three teachers arrive to Técnico main entrance. Both the Youth Outreach Coordinator and the AmCorner main coordinator, Professor Hermínio Diogo will meet and welcome the group outside and proceed to iStartLab.

10H10 – 10H50 – Visit the iStartLab Innovation Laboratory – Main Coordination by Carlos Diogo.

11H00 – 11H15 – Visit the Library located Biblioteca at *Torre Sul – Pavilhão de Química*, specifically the AmCorner reference booth (with PCs and some additional in print books/brochures) that will be briefly closed to accommodate this group of students. eLibrary resources will be briefly showed taking in consideration its importance as a resource tool used by professors and students. Additional and varied info available to share with students regarding April topics.

11H20 – 12H00 - At a different location, but within the American Corner, an American Diplomat will talk about *How an Embassy Works* with the support of a PPT prepared by PDS, Youth Outreach Coordinator, and will answer a few questions at the end.
